Survival Skills for Trainers of Apprentices in Initial VET

2020-1-BG01-KA202-079084

<https://sustainvet.com/>

Following of an intensive year in crafting our **Proficiency Train-the-Trainer Programme** it is finally available for review and commenting to the wider VET community.

Main objective of this product is to empower and build the capacity of the **trainers of company mentors** with series of relevant WBL competences.

The innovative component of this output is related to the introduction of a **situation-based** approach for

planning, implementing and assessing apprenticeships. Situated learning is based on the finding that the situation-derived knowledge is more sustainable than the declarative, procedural and attitude-related knowledge, as its activation happens spontaneously. It is thus the entry door to all other knowledge.

Curious to learn more? Check out the Training Programme on the **SUSTAIN VET** project website!
