The **Toolkit for mentors in dual education** is now freely available on the project website.

Main objective of this product is to address the identified need to improve the professional development of **company mentors**, as a prerogative for the provision of effective and inclusive IVET work-based learning.

The **Toolkit** offers continuous support to company mentors by facilitating their daily work in planning,

designing, implementing and assessing apprenticeship schemes.

The **practical resources** provided aim to ensure work-based learning is a well-structured and attractive learning option with high relevance to the labour market needs.

Curious to learn more? Check out both intellectual outputs on the **SUSTAIN VET [project website](#)** which are available in all partner languages!
